For CSGID. Urmsg 262120Z relaying State msg from Hong Kong. Comment: Anti-Communist resistance cells are known to be active in Anhwei and Honan Provinces - reportedly being organized by Nationalist officials from Taiwan. Intel files do not carry a LIU Lin-Chuan; however, a LIU Lin-Chung is carried. LIU Lin-Chung was a former puppet general recommissioned by the Nationalists after the Sino-Japanese war. He was taken prisoner by the Communists in 1947. This is probably the man in question, and would be a suitable person for carrying out a Communist plot to uncover resistance leaders.
